REAL SCREEN · MXN EXAMPLE

1 Choose your language

At the top, choose Español, English or Automatic (device language), then save.

2 Use your sign-in

Enter your email and password, or continue with Google if that is how you access your account.

3 Recover access

If you forgot your password, select "Forgot my password" and check your email.

KEEP IN MIND

First time here? "Create your family's account" starts the adult registration.

02 / 14

Add your children

From the adult dashboard, open Children > Manage.

The screenshot shows the Lana360 mobile app interface. At the top, there's a header with the Lana360 logo, a green circle with a 'G', and a 'Sign out' button. Below the header, there's a section for currency: 'View balances in' followed by a dropdown menu showing 'MXN' and a 'View' button. A message states: 'New records: MXN. Each currency has its own balance. No conversion.' Below this is a 'Back to home' link. The main section is titled 'Children'. Inside, there's a 'Add a child' form. The form has four input fields: 'Name', 'Their email' (with the example 'child@example.com'), 'Password to share with them' (with a hint 'At least 8 characters'), and 'Child's starting language' (with a dropdown menu showing 'English'). At the bottom of the form is a blue 'Add child' button. Below the form, there's a user profile for 'Santiago' with email 'hijo@local.test' and a 'Deactivate' button. At the very bottom is a navigation bar with icons for 'Home', 'Deposit', a central '+' button, 'History', and 'Reports'. A link 'Resend their sign-in instructions by email.' is also visible.

REAL SCREEN · MXN EXAMPLE

1 Name and email

Enter a name and an email your child can open. Their sign-in instructions will be sent there.

2 Initial password

Choose a password and share it separately. Your child can change it from their account.

3 Invitation language

Choose Español or English under “Child’s starting language”, then select “Add child”.

KEEP IN MIND

The access email never includes the password.

03 / 14

Give your child access

Each child's card below the form includes their access options.

Use an email they can open. Their sign-in instructions will be sent there.

Password to share with them

At least 8 characters

Write it down so you can share it. They can change it later from their account.

Child's starting language

English

Add child

Santiago hijo@local.test Active Deactivate

CHILD'S ACCESS

Resend their sign-in instructions by email.

Message language English

Link copied

Resend email

Scan

Create a new password to share

The email explains how to sign in, but never includes the password. You share the initial password separately, and your child can change it from their account.

Home Deposit + History Reports

REAL SCREEN · MXN EXAMPLE

1 Check the recipient

Check the name and email on the card before sharing access.

2 Choose the language

"Message language" lets you send instructions in Spanish or English.

3 Share or resend

"Share access" copies the link. "Resend email" sends the instructions again.

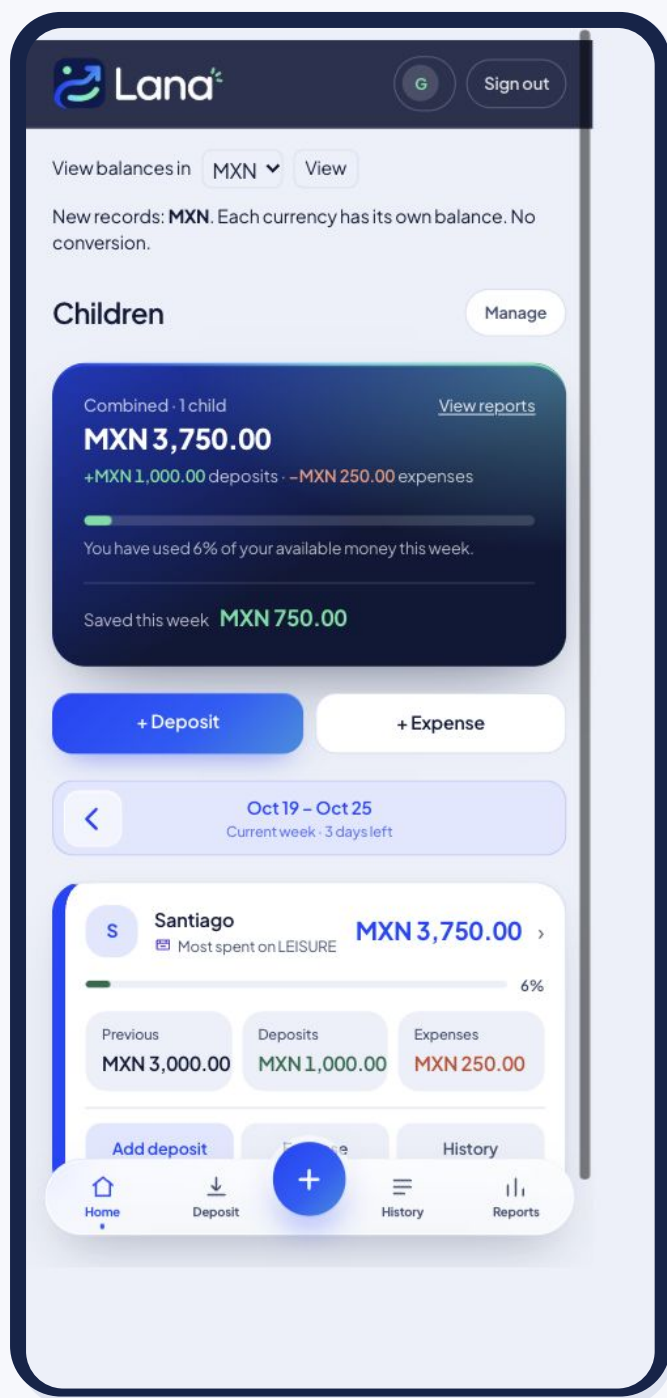

KEEP IN MIND

The QR code and link open sign-in. Share the initial password separately.

04 / 14

Your weekly dashboard

Adults can see the family overview and open each child's details.

REAL SCREEN · MXN EXAMPLE

1 Available balance

The main card summarizes the balance, deposits and expenses in the selected currency.

2 Add funds or an expense

Use "+ Deposit" or "+ Expense". Each child's card also has shortcuts.

3 Move between weeks

The date shows the period you are viewing. Use the arrows to review earlier weeks.

KEEP IN MIND

The balance includes money carried forward from earlier weeks in the same currency.

05 / 14

Record the money you give them

Open Deposit from the navigation or from a child's card.

Back to home

Add a receipt

Tap to take a photo

Home Deposit History Reports

REAL SCREEN · MXN EXAMPLE

1 Child and income type

Select the child. Choose “Deposit” for weekly funds or “Other income” as appropriate.

2 Amount, date and week

Enter the amount and check the currency. Review the date and the week it applies to.

3 Description and proof

You can describe the payment and attach proof. Scroll down and select “Record deposit”.

KEEP IN MIND

This records money you have given your child; it does not transfer money between bank accounts.

06 / 14

Record an expense

Tap the central + button to open the expense form.

The screenshot shows the 'New expense' form in the Lana360 app. At the top, it says 'View balances in MXN' and 'New records: MXN. Each currency has its own balance. No conversion.' Below this is a 'Back to home' link. The main section is titled 'New expense'. It features a 'Child' dropdown menu with 'Santiago' selected. A large green '250' is entered in the amount field, with 'MXN' as the currency. To the right, a balance summary shows 'You have MXN 3,750.00' and 'After this expense MXN 3,500.00'. Below this is a 'Receipt or proof (optional)' section with a 'Frame your receipt' area and buttons for 'Take photo' and 'Choose file'. The 'Expense date' is set to '22/10/2026'. At the bottom, there's a 'Your usual places' section and a navigation bar with icons for Home, Deposit, a central '+' button, History, and Reports.

REAL SCREEN · MXN EXAMPLE

1 Child and amount

As an adult, select the child and enter the amount. Children record their own expenses.

2 Check the remaining balance

After you enter an amount, Lana shows the current balance and the balance after the expense.

3 Optional receipt

Take a photo or choose a file. If receipt details are read automatically, review them before saving.

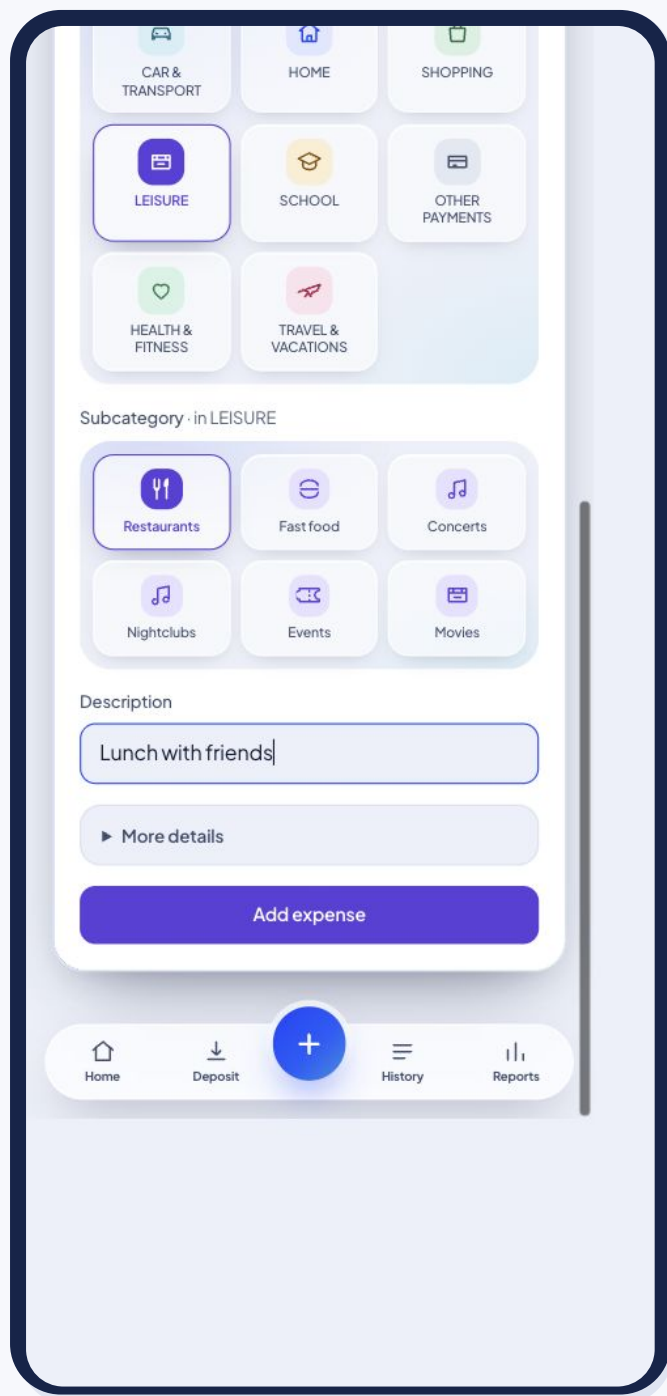

KEEP IN MIND

You can record an expense without a photo. Scroll down to complete its category and description.

07 / 14

Categorize and save

Categories help you understand where the money goes.

REAL SCREEN · MXN EXAMPLE

1 Main category

Tap the group that matches the expense, such as leisure, shopping or school.

2 Subcategory

Choose a more specific option, such as Leisure > Restaurants.

3 Description and save

Add a description you will recognize, then select “Add expense”.

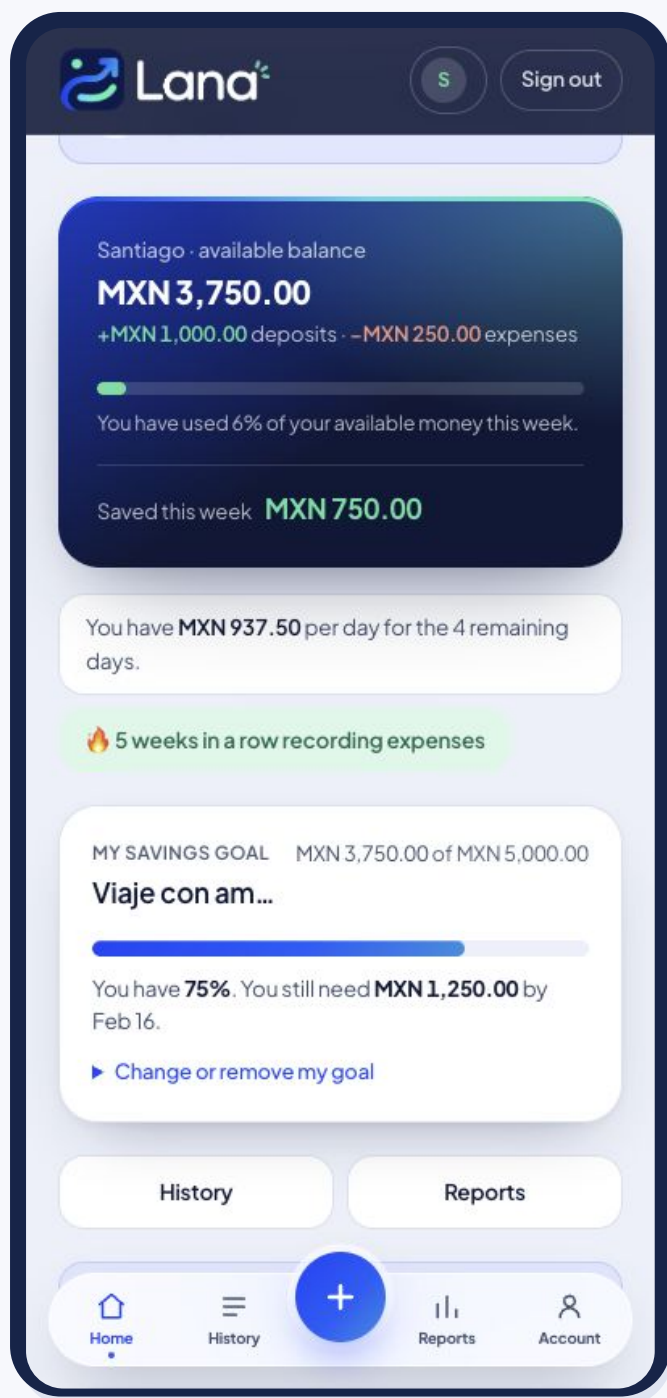

KEEP IN MIND

Consistent categories make History and Reports easier to understand.

08 / 14

What your child sees

Their home screen brings together the balance, daily guidance and savings progress.

REAL SCREEN · MXN EXAMPLE

1 Available money

They see this week's money received and spent, along with the balance they still have.

2 A daily reference

The daily amount helps them pace spending across the remaining days. The streak recognizes regular expense logging.

3 A visible savings goal

The goal card shows how much they have, how much is left to save and their progress percentage.

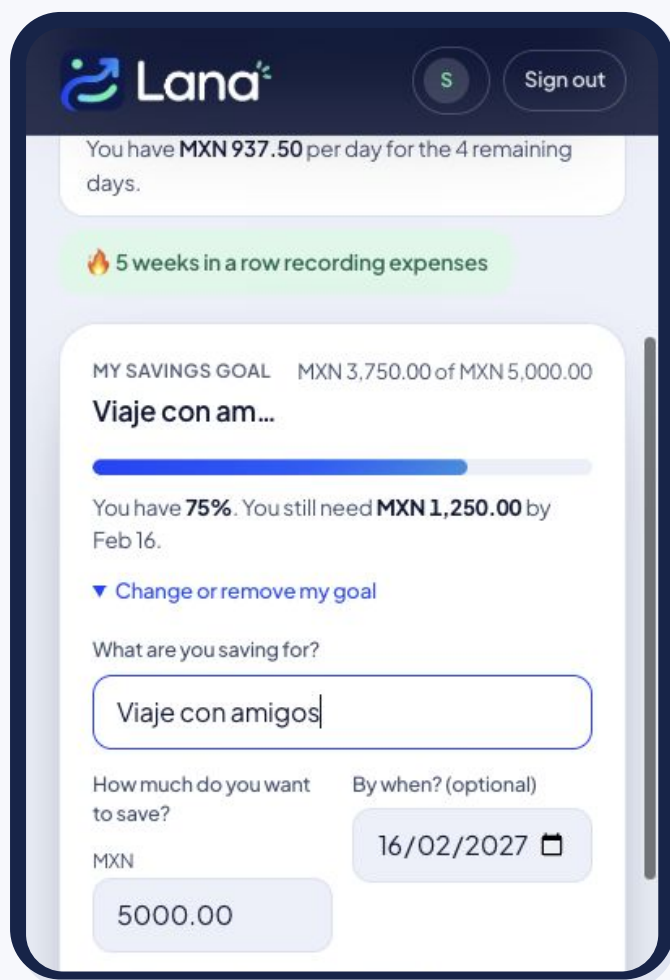

KEEP IN MIND

Children can use English while adults use Spanish. They share records and the family currency.

09 / 14

Give savings a purpose

On the child's home screen, open "Change or remove my goal".

REAL SCREEN · MXN EXAMPLE

1 Something that matters

Name something they want to save for: a trip, shoes or something they are excited about.

2 Amount and date

Set the target amount in the currency shown. The deadline is optional.

3 Save the goal

A photo is optional. Scroll down and select "Save my goal".

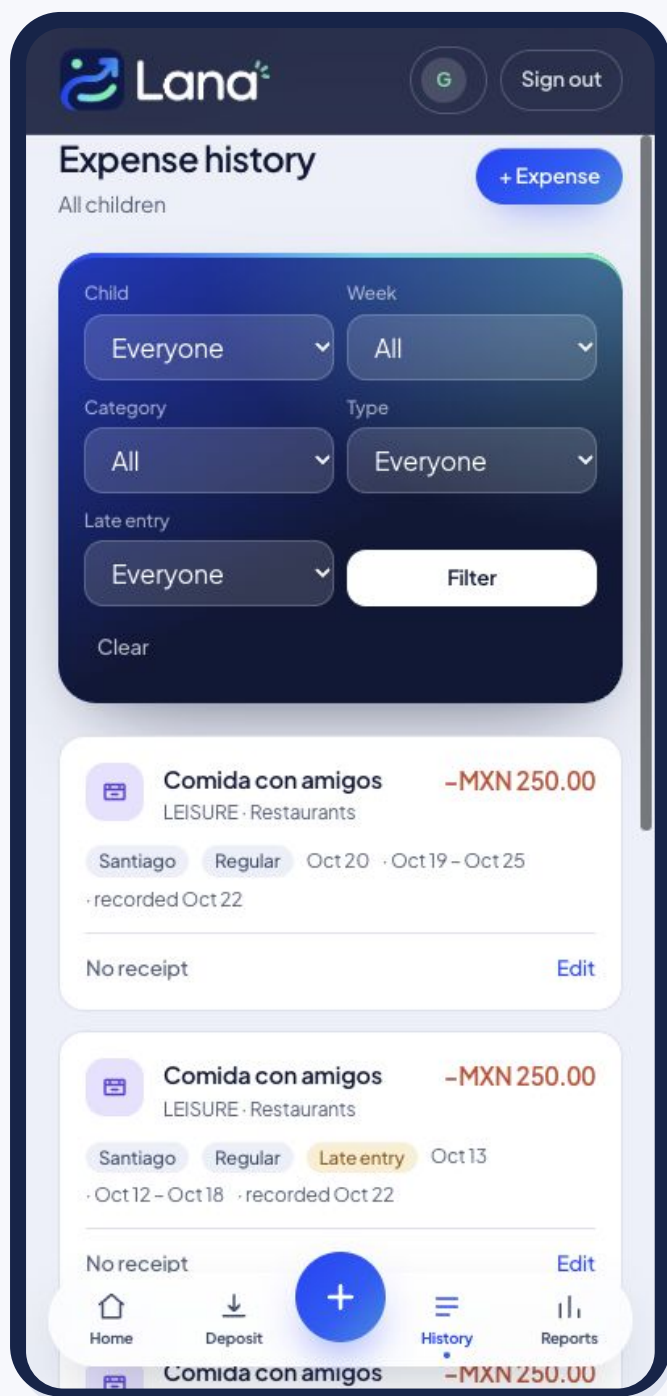

KEEP IN MIND

Progress uses the balance in that currency. Changing currency does not convert earlier savings.

10 / 14

Review and correct expenses

History brings recorded expenses together so you can find a specific one.

REAL SCREEN · MXN EXAMPLE

1 Filter what you need

Choose a child, week, category and type, then select “Filter”.

2 Read each record

Each card shows the description, amount, child and dates. A receipt is shown when one is attached.

3 Correct a detail

Open “Edit” on an expense to review it. Use “Clear” to remove filters.

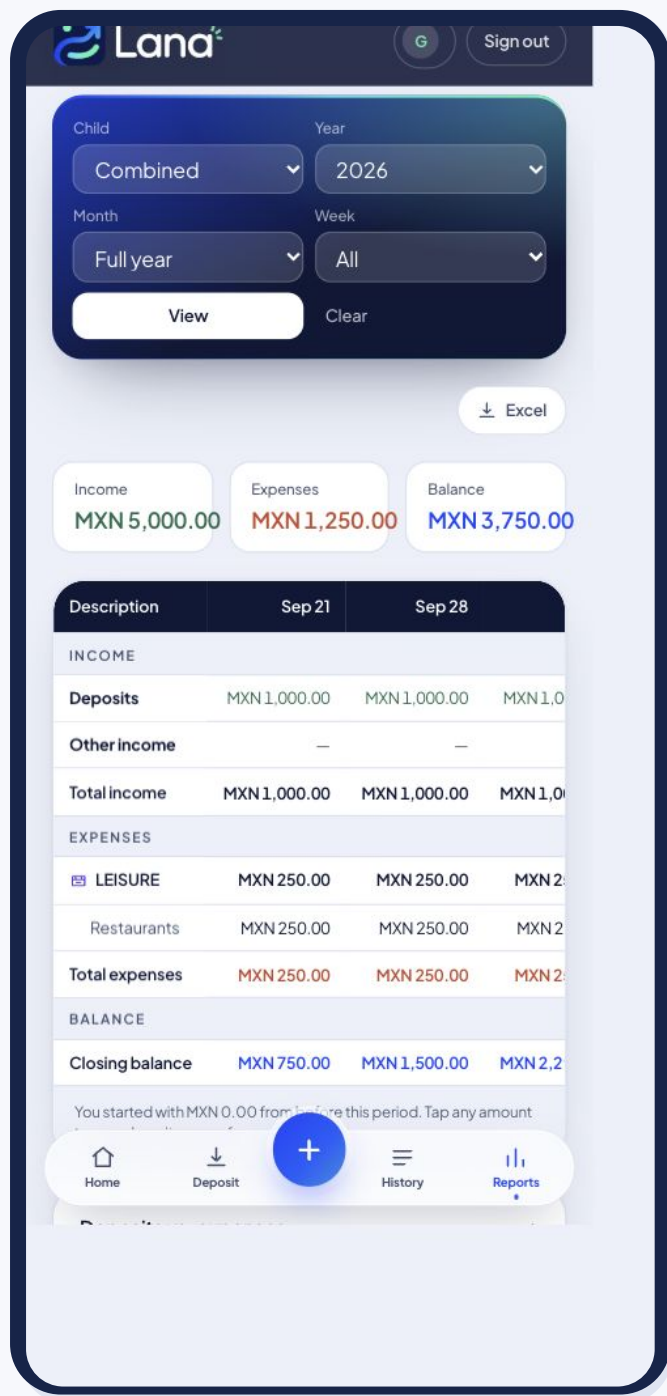

KEEP IN MIND

“Late entry” identifies expenses recorded outside their period; check the dates.

11 / 14

Understand the numbers

Reports shows income, expenses and balances for your selected period.

REAL SCREEN · MXN EXAMPLE

1 Choose the scope

Choose one child or Combined. Select a year, month and week, then select “View”.

2 Explore the details

Review totals and the category table. Tap an amount to see the transactions behind it.

3 Download Excel

“Excel” exports the selected report. On a phone, swipe across the table to see more columns.

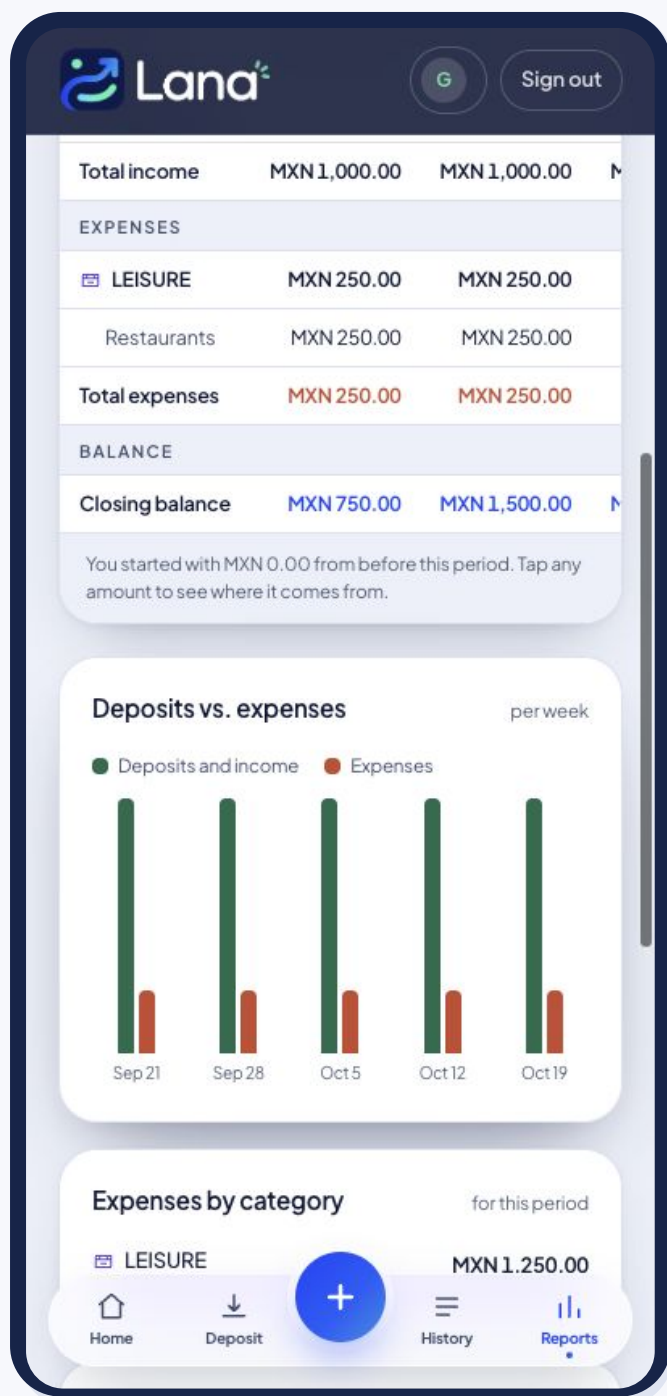

KEEP IN MIND

Each report is for the selected currency. Different currencies are not added together.

12 / 14

Use the numbers to talk

Further down Reports, charts help you spot spending and savings patterns.

REAL SCREEN · MXN EXAMPLE

1 Compare money in and out

“Deposits vs. expenses” compares the weeks in your selected period.

2 Find the main category

“Expenses by category” shows where spending is concentrated. You can open its details.

3 Follow savings

Continue scrolling to see the balance over time and weekly savings.

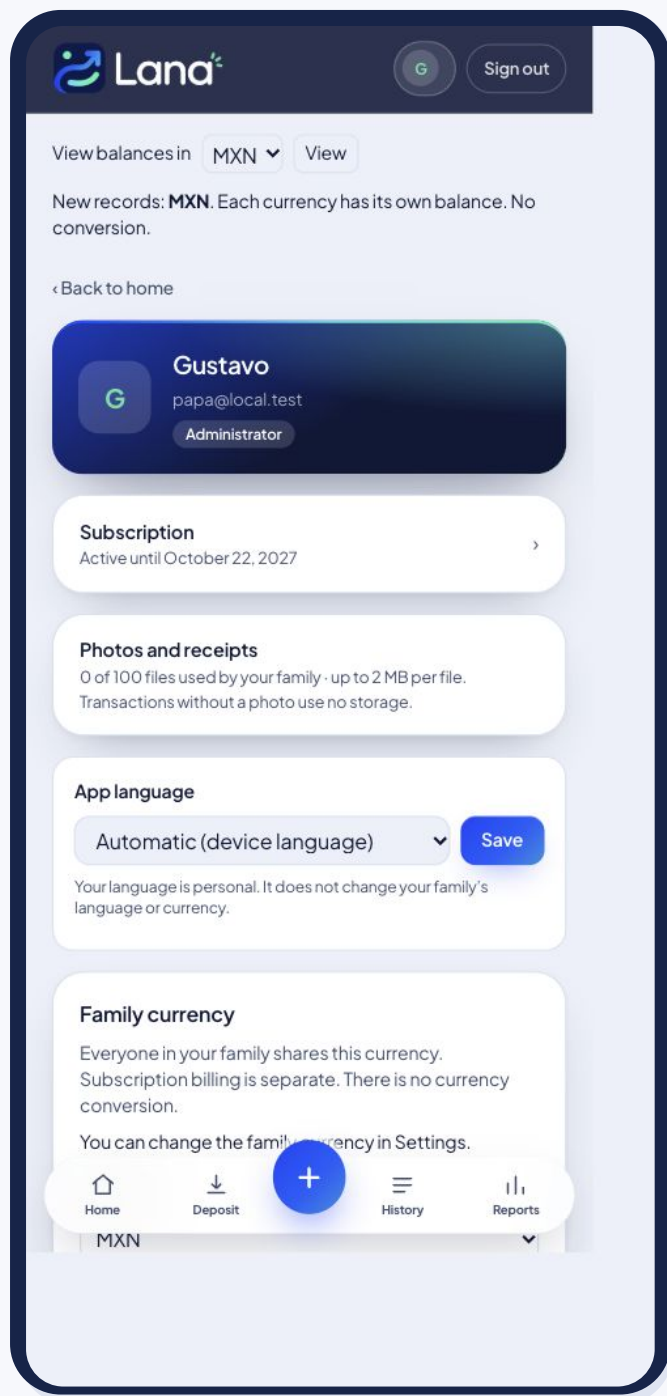

KEEP IN MIND

Review one week together at a time. Focus on learning and agreeing on the next step.

13 / 14

Language is personal

Open your account by tapping your initial at the top.

REAL SCREEN · MXN EXAMPLE

1 Find App language

The “App language” section is inside your account.

2 Choose an option

Choose Español, English or Automatic (device language).

3 Save your preference

Select “Save”. Your interface changes without forcing the same language on everyone else.

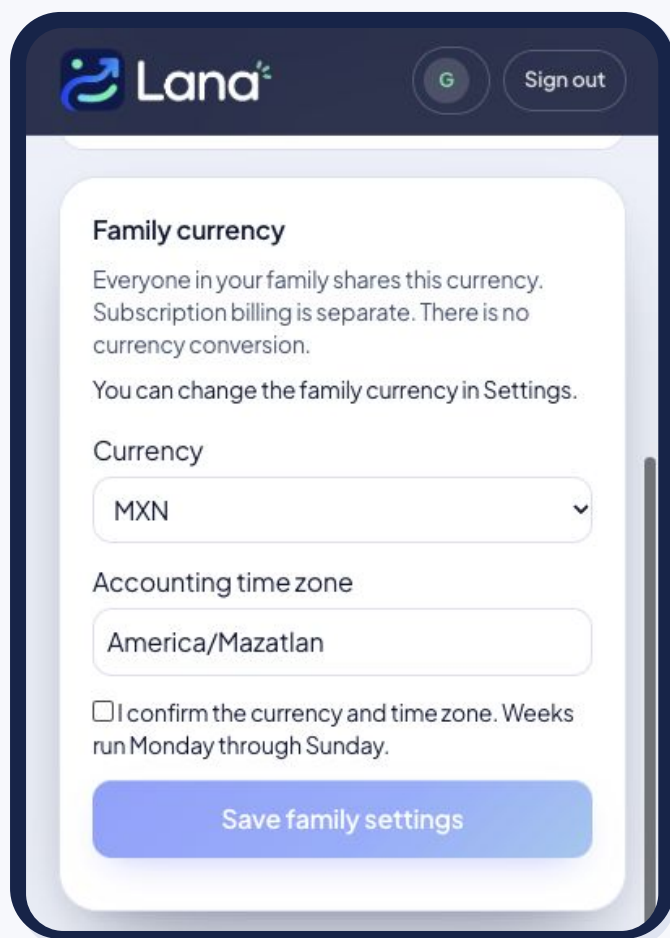

KEEP IN MIND

Names and descriptions entered by your family stay as they were written.

14 / 14

Currency belongs to the family

The adult administrator chooses it under Account > Family currency.

REAL SCREEN · MXN EXAMPLE

1 Choose the new currency

Select the currency you want to use for new records.

2 Confirm and save

Review the settings, check the confirmation and select “Save family settings”.

3 Keep the history

Earlier records keep their original currency. To review them, choose that currency under “View balances in”.

KEEP IN MIND

Example: 5,000 MXN stays in MXN. After changing to USD, new entries use USD. There is no conversion.

A HABIT YOU BUILD TOGETHER

One week at a time.

01 A regular day

Give and record the weekly money on the same day.

02 Log expenses right away

Recording purchases when they happen helps avoid forgotten details.

03 Review together

Choose a short time to talk about spending and goals.

04 Your subscription

Manage your purchase through the channel where you subscribed: Stripe, Google Play or App Store. Billing currency is separate from your family currency.
